

ARTISAN® SEWING MACHINES

17" High Post Bed WALKING FOOT LEATHER STITCHING MACHINE

The New ARTISAN® 6199 is designed for stitching long or large cylindrical products such as tall boot tops, deep bags or larger upholstery cushions.

The principle new feature of the 17" tall compound walking foot, needle feed machine is the ability to unlock the post bed from the vertical position, rotate the post forward and away from the presser feet and needle to ease loading and unloading of your work. The machine includes a reverse mechanism and a dial type stitch length regulator and a modern lubrication system.

6199 Leather Stitchers produce the highest quality equal distant stitch length on all types of light to medium-heavy leathers.

The ARTISAN® 6199 is among the smoothest and quietest semi-automatic lubrication walking foot machines manufactured. You are assured of perfect stitch formation every time with the ARTISAN® 6199. We recommend using "Premium Performance" bonded threads sizes from #33 to #138.

An ARTISAN® DC Electronic Servo

Motor and a 2 speed ball bearing SR-2 speed reducer system is included to help control your stitching torque and sewing speeds. Stitching from one stitch at a time, totally controllable up to about 195 stitches per minute. This is the easiest most controllable leather stitching machine you'll ever sew on.

We Guarantee it!

6199
